Vide Regestration no 291213301834002 Dated 17.12.2009 ,U/S 12AA of I.T. Act.1961 bearing Regd. No. 23/2001-02. Income Tax exempted U/S 80 G of I.T. Act. 1961, vide No. ITO (Tech.) / 80G/42/2006-07. It is a non-profitable charitable voluntary organisation with multifarious aims and objectives and started its programmes for women, children & rural upliftment. This was the result of the initiative taken by a group of committed educators, lawyers, teachers, engineers and rural farmers.

Out of its various activities, welfare of the disables particularly Mentally Retarded is a motto of SAIMA. The research finding in the country shows that 29 of the general population has Mental Retardation. Out of which three fourth of them have mild Mental Retardation while the remaining ¼ are severe cases. In the country, more than 30 Lakhs children are Mentally Retarded, out of which 70 lives in villages, where there are no facilities for treatment or education. In the country very few district have a special school for Mentally Retarded. As a result 1% of the above children do not get any benefit.

Children with delayed development up to the age of three years require the service of early identification, prevention and intervention to be provided by various health and psychological clinics. The special institutions or schools with special teachers in this field can give assistance to mild, moderate and severe Mentally Retarded with regular education.

Considering the above facts, we have taken up a project for special education cum training on behavior modification, group activities for the benefit of the down trodden people of rural sectors as well as to help poor people at their door step and to fulfill the ambition of local area, at a time when the gravity of the problem posed by Mentally Retardation and the related needs had not be realized by poor villagers of this locality.
